SERIOUS RIOT AT NAN-K'ANG FU The Rev. E. S. Little, of the Methodist Epis. copal Church, writes as follows to the Daily

KIUKIANG, 9th November. Nan-k'ang, an important prefectural city on the Poyang Lake, has just been the scene of a very serious riot. In this city two missions are at work, the China Inland and the Methodis Episcopal, each baving chapels in the main bugi ness street of the city. For the past two or three months great unensiness on the part of the natives has prevailed and more than once i seemed as if open hostilities would take place. A month ago a demonstration was made against the C. I. M. chapel and the front part of the building partially beaten in the Methodist chapel was left undisturbed. From that time things have been gradually growing worse. Last week the whole of the military and civil students from the entire prefecture, amounting to six or neven thousand, together with their retainers, aggerabled in the city. Things might have passed off quietly had the literary examiner arrived at the fixed date, but he cume a few days late, and during these days of waiting the studente and roughs found a good opportunity for rioting which they did not allow to slip by unused: The examiner was delayed because a bestchartered by the Nan-kang official to bring over hands, and provisions all being lost. This accident caused the official to cond a messenger praying the eraminer to put off his arrival two Three days ago ab evening time a great

crowd collected before the C. L. M. chapel and became disorderly. The Hien quickly came down and placed the ladies in safe keep ing in the yamen. The Hien is reported in his harangue to the crowd, after having ad vised them to quietly disperse, to have said. "These foreigners have a right by treaty to preach Jesus here, and if you want to believe in Him and onter the church you can. I am an official and do not believe in Him, indeed I heartily detest Him." As soon as be had uttered these words the mob began their work and ntierly demolished the property, leaving absolutely nothing intact. They then mased by my chapel to the opium refure, erented by the C LM. and destroyed it. The Fu was here in his chair, attempting to quell the mob, but they smashed his chair and stoned him so that he had to fly to Mr. H. A. Herbert a grey (1.374). is yamen to save his life. It was now about 8 o'clock at night, and the ladies were safe in the yemen. Six acrests were made, two being sin te ai; these were thrown into prison. The mob threatened to tear it down, but when they found they could not do this, they attempted to find the two native preachers, intending to hold them prisoners until the two literary men were released. But the China Inland Mission preacher was effectually concealed, and my assistant after soveral narrow escapes made his way to the yamen. Up to this time the Mathodist chapel had not been touched. Before daylight next morning my assistant determined to come direct to Kinking, 30 miles distant. He would in ordinary cases

have gone out by the north gate, the gate wealways. enter when approaching the city from Kinking. but he reasoned that in all probability men would be lying in wait there for him, so he went out of the east gate. Before day had broken thousands and thousands of excited rioters were passing hither and thither, and at dawn they made a descent on the Methodist chapel and in a short time reduced it to a total wreck. In the meantime the ladies had been sent on under escort to their Sauitorium at Ta-ku-t'an. These riots are becoming too frequent everywhere; what is the meaning of them? The Japan Mail says :- The ceremony of

investing H.I.H. Prince Harnas Prince Imperial took place on the 3rd November. The Prince. having been born on the 6th of September, 1879 is now in his eleventh year. The occasion of the Emperor's birthday was selected for the ceremony of proclaiming him Prince Imperial but so far as the general public is concerned there was not much to signalise the fêta. A special sheet of the Official Gazette, with with border and the Imperial Arms in gaid, annormed the fact in the morning, and a salate of 101 guns fired at noon in Tokyo confirmed it. The Mercury says :- At ten minutes to four | The coremony itself, being chiefly of a religious
